FEB 17 1954

MEMORANDUM FOR: Acting Deputy Director/Intelligence

REFERENCE: Attached memorandum to Deputy Director/Intelligence, dated 10 February 1954, from [redacted]

SUBJECT: CIA Debriefing of [redacted]

The Medical Division of CSI desires the privilege of participating in the debriefing of [redacted], and feels that the promise of gaining important information is sufficient to justify the Agency's requesting this privilege.

Dr [redacted], Chief of Medical Division/SI, recognizes that other members of the medical intelligence community, particularly in the Departments of the Army, Navy and Air Force, would similarly like this opportunity. [redacted] can take the necessary steps to make such arrangements. [redacted], AF A-2, works with the Medical Division/SI very closely and would be one of the chief persons whom [redacted] would call upon.

The debriefing that [redacted] has in mind would emphasize any evidence of brainwashing techniques.

I believe that Assistant Director/SO, might also have interest in having questions put to [redacted] I am not taking steps to bring the correspondence to his attention.

[redacted]
